

Mondrian letterboxes

Building management has arranged for all letterbox locks to be changed to a non-mastered key system. This should prevent the use of unauthorised keys to open letterboxes and will provide a higher level of security.

Building management will advise all Mondrian residents as to when the new keys can be collected from the building manager.

Building Management, however, reminds all residents that they still need to be mindful of security and ensure their letterbox is locked at all times. It is also vital that nothing of value is left in the letterboxes.

Please don't hesitate to contact the building manager with any questions relating to this upgrade program.
